

UNIK ON THE MOVE! Fourth Edition, April 2018

UNIK ON THE MOVE! COMING TO OUR HEYDAY!

UNIK is always on the move towards a brighter future. Our collaboration with The Rwanda Agriculture Board (RAB) marks a very fruitful result. Through RAB, UNIK is already recognized as one of the seed developers in Rwanda.

Launch of maize seed production at Mugesera in collaboration with RAB.

UNIK Management and staff participated in the opening of the 24th Tutsi Genocide Memorial week which took place in Gashanda Sector at the Ngoma District level.

UNIK also participated in the closing of the 24th Tutsi Genocide Memorial week at Buriba in Rukira Sector at the Ngoma District level.

UNIK Management and staff in the opening of 24th Tutsi Genocide Memorial week

In its efforts to strengthen the alumni network, UNIK is reaching out and meeting its former graduates. The main target for these meetings is to create a forum that will enable UNIK alumni to participate in the University activities and be an important part of its advancements through professional and social networking.

"I owe much to UNIK. Who I am today is a result of my University. UNIK is my parent, my friend, and my everything". I feel proud at any mention of her. Giving back to UNIK would be an honor to me. The UNIK Alumni joining UNIK Association would be one way of strengthening the network and creating social and professional bonds". *UNIK Alumnus*

UNIK Alumni meeting at Kigali

The University always recognizes efforts made by its staff to reach tremendous developments. In this regard, UNIK managements invites staff to festivities to celebrate the Labor Day on May 1, 2018. A day full of joy!

UNIK staff celebrating Labor Day on May 1, 2018

UNIK wants to produce graduates who are versatile. Students, facilitated by the University, are already being taught driving skills. This is an extracurricular item that is meant to make our students fit for the labor market.

Launch of student driving class at UNIK

In the vein of hands-on and Entrepreneurial skills development, students are linked to various trainers and entrepreneurs. This helps them link classroom theories to practice and feed their entrepreneurial dreams.

Student training on programing software by Progate

SSP David Kabuye (standing) and MINEDUC Team launching Quality education Campaign at UNIK

YEGO (Youth Empowerment for Global Opportunity)) training students on how to make soap.

Our efforts to offer quality education are remarkable to our stakeholders. In this regard, the Ministry of Education chose to launch the second phase of "Quality Education Enhancement Awareness Campaign" at UNIK.

**UNIK RECOGNIZES EVERY
STAKEHOLDER'S ROLE IN ITS'
TODAY'S DEVELOPMENTS!**

**LET'S KEEP CONNECTED!
GOD BLESS YOU!**
